Are Tired of Fighting.

The suggestion that perhaps this recognition of Mr. Stimson by the President will be objectionable to the "old guard" does not carry weight with New York Council next October, and President Taft politicians here. They say that the faction of which Mr. Stimson was the choice for candidate for governor is by no means a negligible quantity in New York politics and is entitled to recognition. Anyhow, the "old guard," it is said, has had enough of fighting, and realizes as well as the others that so far as benefits from the cut-throat business are concerned "there is nothing to it." They are ready to make up and get back to business in anticipation of the campaign for the legislature next year.
